American Federation of Musicians & Employers' Pension Fund

Applying for Your Pension Benefit¹ The Two-Part Application

In order to receive your pension benefit, you must file a complete two-part Pension Application, and submit all required supporting documents, within the required time periods. Your failure to file a complete Pension Application will be deemed to be an election to defer payment of your benefit.

Part 1: Preliminary Information form

Part 1 of the Pension Application consists of the Preliminary Information form, along with a notice describing the Plan's early retirement procedures. Part 1 of the Pension Application is available from the Fund Office or in the Applications and Forms section on the Fund's website at www.afm-epf.org.

You must complete the Preliminary Information form and return it to the Fund Office, along with all required documents described in the Preliminary Information form (for example, proof of age, marriage, and divorce documents), at least 90 days before the date that you request as your Pension Effective Date on the Preliminary Information form. The Fund Office must have the required documents to verify your age, your marital status, the age of your Spouse, if applicable, and, if you are divorced, determine whether your former Spouse is entitled to any portion of your pension benefit. If you do not have your birth certificate or marriage certificate, you may be able to request them from the office of vital statistics in the state where you were born or married. If you do not have your divorce decree or divorce settlement agreement, you may be able to obtain them from the court that granted your divorce.

If you do not return a completed Preliminary Information form and all required documents at least 90 days before the Pension Effective Date you request on the Preliminary Information form, your Pension Effective Date may be later.

¹ This notice appears on pages 41-43 of the Summary Plan Description – 2013.

The Fund Office will notify you in writing:

1. when Part 1 of the Pension Application is complete;
2. if you are not eligible for a pension benefit; or
3. if additional items are needed to complete Part 1 of the Pension Application. If you do not provide the additional requested items within 60 days of the date of the Fund's request, your application will expire and you will need to begin the application process again by completing and returning a new Preliminary Information form.

Part 2: The Choice of Benefit Payment Option form

After the Fund Office has received your complete Preliminary Information form, including all required documents, the Fund Office will begin the work necessary to send you Part 2 of the Pension Application. Part 2 consists of:

- a "Choice of Benefit Payment Option" form for you to choose how your pension benefit will be paid;
- an explanation of the benefit payment options;
- an explanation of your Spouse's rights with respect to the available benefit payment options and the financial effect of waiving the normal form of benefit payment; and
- your earliest Pension Effective Date.

You must return a fully completed Part 2 of the Pension Application (Choice of Benefit Payment Option form and spousal consent form, if required) before your actual Pension Effective Date can be determined.

Your Pension Effective Date

Your Pension Effective Date is the first day of the first month for which you receive a pension benefit.

- Your earliest Pension Effective Date is the first day of the first month following the month in which the Fund Office receives from you a complete Part 2 of the Pension Application (Choice of Benefit Payment Option form and spousal consent form, if required) if these forms are received at the Fund Office *on or before the 15th day of the month*. If the forms are received at the Fund Office *after the 15th day of the month*, your Pension Effective Date is the first day of the second month following the Fund Office's receipt of your forms.
- You may choose a later Pension Effective Date.
- Your Pension Effective Date will not change if there is an administrative delay in processing your benefits. In that case, you will receive benefits retroactive to your Pension Effective Date.

If your Pension Effective Date would be more than 180 days after you were provided with Part 2 of the Pension Application, then your application will expire, and you will need to begin the application process again by completing and returning a new Part 1 of the Pension Application.

Example 1: Joe, who is Married, fills out Part 1 of the Pension Application, requesting a Pension Effective Date of July 1, and returns it to the Fund Office. The Fund Office determines that it is complete, and then prepares and sends him Part 2 of the Application (Choice of Benefit Payment Options form and spousal consent form). If Joe completes and sends back these forms and they are received at the Fund Office on or before June 15, Joe's Pension Effective Date will be July 1. If the forms are received at the Fund Office after June 15, but before July 16, his Pension Effective Date will be August 1.

Example 2: Matthew, who is divorced, fills out Part 1 of his Pension Application, requesting a Pension Effective Date of April 1, and returns it to the Fund Office. The Fund Office determines that it is incomplete and asks Matthew for the information and documents needed to complete Part 1 of the Application. Matthew completes Part 1, and the required documents are received by the Fund Office on March 1. The work needed to send him Part 2 of the Pension Application (Choice of Benefit Payment Option form) is completed in late March. If Matthew returns the completed form, and it is received at the Fund Office on or before April 15, Matthew's Pension Effective Date will be May 1. If the forms are received at the Fund Office after April 15, but before May 16, Matthew's Pension Effective Date will be June 1.

Example 3: Lauren, who is Married, fills out Part 1 of her Pension Application, requesting a Pension Effective Date of July 1, and returns it to the Fund Office. The Fund Office determines that it is complete, and then prepares and sends her Part 2 of the Application (Choice of Benefit Payment Options form and spousal consent form). Lauren returns the completed forms, and they are received at the Fund Office before June 15. Her Pension Effective Date will be July 1. This is true even though, due to an administrative processing delay, her payments do not actually start until August 1. Her first payment will include both a payment of her August pension benefit and a retroactive payment of her July pension benefit.

Early Retirement—What You Need to Know

Don't let this happen to you...

You apply to start your pension benefit. You have a retirement party, say your goodbyes and begin receiving your pension on April 1st. In May you get a call, "Can you fill in? We'll pay you." It's not your former employer, it would help the community, and you're getting a bit bored. You take the job. You don't stop to ask if the organization contributes to the AFM-EPF.

Months later you receive a notice from the Plan. Your pension benefit is being terminated and you have to pay back *seven months'* worth of pension payments that were made to you. Plus, you have to re-apply to start your pension again and that will take time. It's a huge hassle and a financial strain. All for one little job.

* * * * *

There are two key things you need to know if you wish to start your pension benefit before age 65:

1. When you start the benefit application process, you must have every intention to retire and have no plans to return to any kind of work for a participating employer.
2. Your benefit will be lower than if you wait until 65 to start payments.

1. When you start your benefit, you must intend to stop working

The purpose of a pension plan is to provide retirement security through income replacement in retirement. A pension is not generally designed to be paid while you are continuing to work. In fact, most multiemployer pension plans suspend or stop paying benefits for those who return to work after retirement. The AFM-EPF does not suspend benefits for those who return to work after retirement, meaning you can retire and then later return to covered employment. If you retire before you turn age 65, however, you must satisfy the Plan's early retirement rules or risk being determined not to have retired.

In order to start your AFM-EPF benefit before 65, you must meet all three of these requirements:

- You are at least age 55
- You are 100% vested in your benefit, and
- You retire from all employment with all employers contributing to the Fund.

The first two requirements are quite straightforward. However, the notion of retiring from all employment with Contributing Employers is sometimes misunderstood.

How the Fund determines that you have retired

The requirement that you stop working if you start your benefit before 65 was adopted to comply with federal tax law and avoid jeopardizing the tax treatment of every participant's pension benefits and contributions to the Plan.

To be eligible for early retirement, you must have no intention or expectation to do **any kind of work** in the future for any of the employers that contribute to our Plan. As part of your application for your pension, you will be required to sign an affidavit confirming that you are retiring from all employment with all employers

Tip: Before you agree to do any kind of paid work in this industry after your Pension Effective Date, ask the employer if they are a Contributing Employer to the AFM-EPF. There are thousands of employers who contribute to the Fund — don't assume that you would know if an employer participates or not in the Plan.

contributing to the Fund. If you are deemed to be steadily employed, the Fund Office will also contact your employer(s) to confirm your retirement date and verify that you have no right to return to that employment.

After your Pension Effective Date, the Plan will monitor contributions for the two months following your Pension Effective Date to verify that you perform no work of any kind for any Contributing Employers.

Important—please note:

1. If at the time of your Pension Effective Date you have already scheduled any future work, *even if it's beyond these two calendar months*, this is considered an intention or expectation to work, and you will not be considered retired.
 2. If you're employed in steady work that has seasonal breaks (such as a symphony), the two months apply not only after your Pension Effective Date, but *also for the two calendar months at the beginning of your employer's next season*.
-
-

What if the Plan determines I didn't retire?

Six months following your Pension Effective Date, the Fund Office will look back at the first two months after your benefit started. If the Plan determines that you did not retire, your pension benefit will be terminated and, because it was not a valid retirement, you will be required to repay the benefits you received with interest.

For example, if your Pension Effective Date is April 1 and you do some work for a Contributing Employer in May. The Fund Office will review the six months after your Pension Effective Date, in November. Therefore, the fact that you worked within two months of your Pension Effective Date will not be discovered until you have received seven months of benefits and you would have to repay all seven months, with interest. When you actually end employment with all Contributing Employers or you reach Normal Retirement Age, you will need to apply for your pension benefit again.

Can I work again after I've retired early?

If you perform any kind of work for a Contributing Employer in the two calendar months after your Pension Effective Date, you will be considered not to have retired and your pension will be terminated. This includes if you had pre-scheduled work engagements before retiring, even if they are after the two month period. It also includes going back to steady employment after a seasonal break, if it is within two calendar months after the start of the new season.

However, if you did intend to retire and did not return to work in the two calendar month period after you retired and started your pension, you can then go back to work, continue receiving your pension benefit, and earn additional benefits.

As stated previously: if at the time of your Pension Effective Date you have already scheduled any work, even if it's beyond the two calendar month period, it is considered an intention or expectation to work, and you will not be considered retired.

This is only a summary of the rules. For more detailed information, please review the Plan's [early retirement procedures](http://www.afm-epf.org) at www.afm-epf.org.

Consider how retirement may affect your terms of employment

Apart from any of these AFM-EPF rules, you should consider the other terms of your employment before you apply for early retirement. Different employers have different rules that may impact your retirement decision. For example, in order to start collecting your early pension benefit, a symphony may require that you give up your tenure or, if you're employed in a steady position such as a local officer, you may need to actually resign.

2. Your benefit will be lower than if you wait until 65 to start payments

Pension plans are generally designed to produce a benefit that starts at normal retirement age – usually age 65. Many plans, including the AFM-EPF, allow participants to retire and start their benefits at an earlier age.

The AFM-EPF allows you to retire early and start your benefit at any age from 55 through 64. Your benefit is calculated based on your age when you start your benefit (called the Pension Effective Date). Your age on your Pension Effective Date is determined as of the first of the month following your last birthday.

The younger you are, the lower the multiplier. It's similar to Social Security. You can start your Social Security benefit as early as age 62, but it will be reduced compared to what you would get at your normal retirement age.

Why are the multipliers lower for early retirement?

Let's say someone was entitled to a monthly benefit at age 65 but instead took that same amount at an earlier age. That benefit would be worth a lot more and cost the Plan more to provide. This is true for two reasons:

1. The person would get that payment for a longer period of time, so they are getting more money by starting early.
2. The person is getting money sooner, and money paid sooner is worth more than money paid later. That's because when money comes out of the Plan early, that money isn't available to earn investment income for as long a period of time. And it is worth more to the person who got the money earlier because he or she can invest it for longer. (This is sometimes referred to as the time value of money.)

In order for a benefit paid before age 65 to be equivalent in value to a benefit at age 65, the amount has to be reduced. That lower amount is called the "actuarial equivalent" of the age-65 amount. (The term "actuarial" is used because in order to figure out how much to reduce the age-65 benefit, actuaries have to make certain assumptions such as how long people are expected to live and what interest rate to use to figure out the time value of the money described above.)

$$\begin{array}{ccc} \$1.00 \text{ multiplier} & = & \$0.37 \text{ multiplier} \\ \text{at age 65} & & \text{at age 55} \end{array}$$

An actuarial reduction isn't a penalty because someone took their benefit early. It is simply a mechanism for making the early benefit equivalent in value to the age-65 benefit.

AMERICAN FEDERATION OF MUSICIANS AND EMPLOYERS' PENSION FUND

EARLY RETIREMENT PROCEDURES - PARTICIPANT NOTICE

To comply with federal law, the Plan requires that a Participant may begin receiving a pension benefit before Normal Retirement Age (generally age 65) only if he or she retires from all employment with any Employers contributing to the Fund. These Early Retirement Procedures – Participant Notice (“Procedures”) set forth the Plan’s rules for determining whether a Participant has retired and is therefore eligible to begin receiving an early retirement pension. Please keep in mind that the Procedures were adopted by the Fund’s Board of Trustees to comply with federal tax law and avoid jeopardizing the tax treatment of every Participant’s pension benefits.

1. WHAT IS RETIREMENT

You will be considered to be retired only if you meet **all** of the following requirements:

- You have stopped all work with all Employers who contribute to the Fund as of your Pension Effective Date, whether or not pension contributions are payable for such work;
- You have no intention or expectation to work after your Pension Effective Date with any Employer who contributes to the Fund;
- You have no right under a Collective Bargaining Agreement or any other contractual right to employment after your Pension Effective Date with any Employer who contributes to the Fund;
- You perform **no work of any kind** for an Employer participating in the Fund during the first two calendar months following your actual Pension Effective Date (which may be later than your requested Pension Effective Date); and
- If you retire from steady employment with an Employer that has seasonal breaks in work at the end of a season, you perform **no work of any kind** for that Employer in the first two calendar months following the beginning of that Employer’s new season.

Your **Pension Effective Date** is the first day of the first month for which you receive your pension benefit.

- Your earliest Pension Effective Date is the first day of the first month following the month in which we receive from you a complete Part 2 of the Pension Application (Choice of Benefit Payment Option form and spousal consent form, if required) if we receive these forms *on or before* the 15th day of the month or, if we receive the forms *after* the 15th day of the month, your Pension Effective Date is the first day of the second month following our receipt of the forms.
- You may choose a later Pension Effective Date.
- Your Pension Effective Date will not change if there is an administrative delay in processing your benefits. In that case, you will receive retroactive benefits back to your Pension Effective Date.

Please refer to the accompanying article, *Applying for Your Pension Benefit – The Two-Part Application*, for more information.

Two calendar months is the period of time from the Pension Effective Date (always the first day of a month) through the end of the second month following the Pension Effective Date. *Example: if the Pension Effective Date is February 1, the first two calendar months following that date end March 31 (regardless of the actual number of days between these dates).*

Special Note: For Participants retiring from steady employment with an Employer that has seasonal breaks, **two calendar months** is also the period of time from the beginning of the new season following retirement through the end of the day before that calendar date two months later. *Example: if the season begins September 15, the first two calendar months following that date end on November 14.*

2. HOW THE FUND WILL CONFIRM RETIREMENT

The Fund will confirm your retirement in three ways:

- by your statement on Part 1 - Preliminary Information form of the Pension Application,
- by the representations of your Employer(s) for whom you are employed in steady employment, and
- by the contributions made on your behalf after your Pension Effective Date.

These processes are described below. Bear in mind that *each* process will be used if it applies to your situation; they are not alternative ways to show that you are retired.

The Pension Application

Part 1 - Preliminary Information form of the Pension Application requires a signed statement that:

- you will have stopped **all** work with all Employers who contribute to the Fund as of your Pension Effective Date, including any work for which no pension contributions are payable (such as administrative services);
- you have no intention or expectation to work after your Pension Effective Date with any Employer who contributes to the Fund; and
- you have no right under a Collective Bargaining Agreement or any other contractual right to employment after your Pension Effective Date with any Employer who contributes to the Fund.

Confirmation of Retirement with Your Employer

If you are employed in steady employment, the Fund will contact your Employer(s) before your Pension Effective Date to confirm that you have actually retired, and that you have no further right, understanding or expectation of future employment. Examples of steady employment include:

- employment for the run of a Broadway show;
- employment in a house band for a network variety show;
- employment with the AFM or its local unions (including employment as an elected officer);
- employment under an orchestra Collective Bargaining Agreement; or
- employment with AFM-related funds such as the Film Musicians Secondary Markets Fund, the Sound Recording Special Payments Fund or the Music Performance Trust Fund.

This is not an exhaustive list of types of steady employment. There may be other situations in which you work on a steady basis that will be considered steady employment for the purposes of these Early Retirement Procedures.

Requirements Following Your Pension Effective Date

After your Pension Effective Date, the Fund will confirm the statements made on Part 1 of the Pension Application and by your Employer(s) by monitoring any additional pension contributions made on your behalf. If the Fund finds that you performed any work for an Employer participating in the Fund during the first two calendar months following your Pension Effective Date, you will be considered not to have retired.

In addition, if you retire from steady employment with a symphonic Employer or other Employer that has seasonal breaks in work at the end of a season, and the Fund finds that you performed any work for that Employer in the first two calendar months following the beginning of that Employer's new season, you will be considered not to have retired.

3. CONSEQUENCES OF FUND'S DETERMINATION THAT NO RETIREMENT HAS OCCURRED

If you begin an early retirement pension but the Fund determines that you did not retire in accordance with these Early Retirement Procedures, your pension will be stopped immediately. For example, your pension will be stopped if you return to work (even a very small amount of work) before the end of the applicable two calendar months described above, or if the Fund discovers that you had future musical engagements scheduled prior to your Pension Effective Date (even if those engagements are outside the applicable two calendar months).

If your pension is stopped because the Fund determines that you did not retire, you will be required to repay to the Fund any pension payments that were made and you will need to reapply to receive a pension in the future. Any decision by the Fund that you have not in fact retired may be appealed under the claims and appeals procedures described in the 2013 Summary Plan Description.

4. RETURNING TO WORK AFTER YOUR EARLY RETIREMENT PENSION EFFECTIVE DATE

If you return to work after your early retirement Pension Effective Date, you will continue to receive your early retirement pension unless you returned to work before the applicable two calendar months described above, or unless the Fund otherwise determines that you were not in fact retired as of your Pension Effective Date.

5. MORE INFORMATION ABOUT THE PROCEDURES

If you have questions about these Early Retirement Procedures, please contact the Fund in writing or via the Fund's website using the "Contact Us" feature. This will enable the Fund Office to review your questions before responding so that you can receive a more thorough, considered response than if you were to ask your questions over the telephone. We understand that time may be of the essence

and we will do our best to ensure that you receive a prompt answer to any question that you raise by mail or via the website. Notice for Foreign Resident Payee U.S. Federal Income Tax Withholding

The United States Internal Revenue Service (IRS) requires the Fund to presume that a payee is a Non-Resident Alien and subject to 30% non-resident alien withholding on benefit payments (as defined and discussed below) unless the Fund has a Social Security Number (SSN) on file for the payee and the Fund has a mailing address for the payee in the United States or in a foreign country with which the United States has an income tax treaty (that provides that, if the payee is resident in that country, the payee would be exempt from United States tax on this benefit income). For this reason, it is important that the Fund have the correct Federal Tax Withholding documentation including a Social Security Number (SSN) or Individual Taxpayer Identification Number (ITIN) from participants and beneficiaries with foreign addresses.

- You are a Non-Resident Alien (NRA) if you are not a citizen of the United States (US) (or are otherwise treated as a US person – e.g., as a resident alien – under the federal tax law).
 - Generally, a 30% non-resident alien withholding rate will apply unless certain requirements are met.
 - If you reside in a country that has an income tax treaty with the US, you may be eligible to have no withholding apply or be eligible for a non-resident alien withholding rate less than 30%.
 - If you reside in a country that does not have an income tax treaty with the US, a 30% non-resident alien withholding rate will apply.
 - You must provide the Fund Office with an original IRS Form W-8BEN including your ITIN to avoid an automatic 30% federal income tax withholding on your monthly benefits. If a completed Form W-8BEN is not received and processed by the Fund Office before payment of your pension benefit begins, the Fund is required to withhold federal income tax at 30% until a completed Form W-8BEN is received and processed by the Fund.
 - If you do not have a SSN and are not eligible for one, you must get an ITIN before completing the Form W-8BEN. Apply to the IRS for an ITIN using IRS Form W-7 (see URL to IRS below).

- If you are a **United States citizen** (or are otherwise treated as a US person – e.g., as a resident alien – under the federal tax law) and reside in a foreign country:
 - You **must provide the Fund Office** with an original IRS Form W-9 before payment of your pension benefit begins to ensure that you will be classified as a US person. In that event, withholding on monthly benefits will be imposed as set forth in Part 2 of the Pension Application relating to US persons. Please note that the election to be exempt from income tax withholding is not available to any benefit sent to an address outside the United States.
 - If a completed IRS Form W-9 is not received and processed by the Fund Office before payment of your pension benefit begins, the Fund is required to presume that you are a Non-Resident Alien and withhold federal income tax at 30% until a completed IRS Form W-9 is received and processed by the Fund.

Please note: You **must notify** the Fund if you have a change in circumstances that makes any information on the Form W-8BEN or W-9 that you submitted incorrect. This includes a change of address to a US address or to another country for which you are claiming treaty benefits.

If you require assistance with the completion of the applicable form(s), please consult your tax advisor, review the instructions and download the form(s) from the IRS website.
